MONTH'S WORK NECESSARY TO COMPLETE SURVEYS

**H. C. Frick Engineers
Still In This Part of
The Valley**

OPENINGS WITHIN YEAR

**Mines May be Put in Opera-
tion Before Twelve
Months Elnapse**

Engineers of the H. C. Frick Coke Company, the fuel end of the States Steel corporation, are still at work in the Monongahela valley making surveys of the property and crop lines of the tract recently purchased in this vicinity from the Pittsburgh Coal Company and affiliated concerns. While all due haste is being exercised in making the surveys it is likely that they will not be completed for a month yet.

The general impression among the engineers is that there will be openings made within a year along the valley. Where is a question. Probably one opening at least will be in the vicinity of Charleroi. Others will be at intervals along the valley between Monongahela and Rices Landing.

There are nine corps of engineers now working in the valley between Rices Landing and Monongahela and C. A. McIntyre is the engineer in chief. Three corps are working with headquarters at Charleroi.

The work of surveying the tract adjacent to Charleroi on the south has been completed. This tract extends back to within a few miles of Bentleyville and adjoins the Vesta Coal Company's holdings. It runs to about the Maple Creek line. This work was started first, and was completed first. It was stated that two openings were to be made by the Frick people, one near the present Redbird mine opening and the other at Beechwood.

It is not known whether or not either of the openings for a certainty will be made. After finishing the surveys back of Speers and Dunlevy the engineers stationed at Charleroi were sent to help out on the Monongahela end which was not begun until after a good start was made on the local work. At the same time engineers were put to work in the vicinity of Brownsville and Rices Landing.

What gives rise largely to the belief that mines will be opened in this vicinity is the fact of the superiority of the coal to be had. In their Fayette county fields the H. C. Frick Company has good coal for coking purposes but it has not the quality for steam, gas and coking purposes the coal to be found in this part of the Monongahela valley has. Should they find it advisable to start operations along the Monongahela valley the Frick Coke company in all probability ship much of the coal to Indiana to be used in gas producing. This coal is said to be especially adaptable for such use.

Child Lost.
Utterly bewildered and crying bitterly a lost child about 4 years old was found this morning at the playgrounds in the Pines. It was taken to the home of Mrs. Mountchecourt on Crest avenue.

A good sized crowd attended the firemen's dance at Eldora Park Thursday night. An excellent time was enjoyed.

SPLENDID RACES AT SANDY PLAINS

**Big Crowd and Good Going
Features Best Year at
Popular Track.**

The annual racing season at the Sandy Plains track came to an end with a bunch of fast events Thursday afternoon pulled off on a well nigh perfect track in the presence of a crowd which in numbers far exceeded the turnout of Wednesday the opening day.

Princess Alcantara, represented as a Fayette City horse won first money in the 2:18 pace. This horse is one in which Dr. A. O. Davis of Charleroi is interested.

ATTRACTIONS ARE PICKED

**Entertainment Course This Year
to be an Especially
Good One.**

TWO LECTURES SECURED

The costliest and what is supposed will prove the best entertainment the Charleroi Citizens' Entertainment course Charleroi ever had was selected by Charleroi Citizens' Entertainment Course committee at a meeting Thursday night. Consisting of two lectures and four entertainments it is expected the course will prove more attractive than that of last year. It will cost \$500.

The lectures will be Newell Dwight Hillis, pastor of the Plymouth church Brooklyn and one of the best known lecturers of the present day and Judge George D. Alden, of Massachusetts. Judge Alden comes well recommended.

The entertainers selected were: Strickland W. Gillean, humorist; Alton Packard, cartoonist; the Dudley Buck Concert Company of ladies; and the Music Makers, a male quartet of singers and players. Packard, the cartoonist appeared here once before and was well received. The Dudley Buck company is said to be one of the best musical organizations on the road today.

CRAFTON PICKED TEAM MAY COME

Prof. I. T. Daniel, chairman of a committee from the Church baseball league to arrange games with other Church league teams, is in receipt of a letter from Earl Graham of the Grafton-Ingram league, in which the latter states it was the intention of the Grafton-Ingram people to play the local team of pennant winners and the league there does not favor playing with a picked team. He says further that he will get a team together if desired to play in Charleroi any Saturday. It is possible that a game may be arranged.

SLAV PROVES EASY VICTIM TO SHARPER

**East Charleroi Man Loses \$65 Through Trust
In Another Man by Whom
He Was Accused.**

After searching from 10 o'clock to 2 o'clock Thursday for a man who divorced him from \$65 in hard earned money, a Slav with wonderful thoughtfulness happened to think that the police were the persons to whom he should confide his tale of woe, and he approached them. But by this time his erstwhile companion who had secured the money was not to be found.

The Slav was from East Charleroi and was going to Lexington, Ky. He met a couple of others who said they were going to the same place. Out for a walk one accused the unsophisticated East Charleroi young man of robbing him. This was

of course denied, but the man insisted while the third member of the party walked away. Finally the East Charleroi man pulled out his roll and his companion counted it. He claimed the money was the right amount. Then it happened to occur to him that perhaps after all he was mistaken and that the one who had walked away had taken the money. Still he was not going to lose so telling the East Charleroi man to wait he walked away with the \$65, supposedly to accuse his friend of the theft. After waiting until near noon the latter started on a search then went to the police. He will not go to Lexington.

PHILLIPS IS POPULAR

In the opinion of Charleroi folks there could be no better choice made by the workers of the Cincinnati National League baseball club than to choose "Bill" Phillips for manager of the team. To secure him would be a to secure a man well versed in the art of managing and one who knows baseball thoroughly.

Besides having an enviable record of 24 years himself as a pitcher and player, Phillips has acquired a reputation as a manager. His acumen at picking players has brought him substantial offers from big league clubs to do scout duty nearly all of which he has seen fit to turn down.

Phillips has made more than one play. He had a guiding hand in the destiny of "Bill" McKennie, the young Pittsburgher who, is making such a record with the Pirates this year. Another man he introduced was Nick Maddox who was an effective twirler for the Pirates for a couple of years and who is doing great work now in the American Association.

When he took charge of East Liverpool a few seasons ago, he took hold of a club which didn't seem to have any future. He dug up players from no place apparently and developed the best team in the O. and P. league. When he took charge of Wheeling he didn't have much material and had a tail ender to build up. He was close to Barney Dreyfus and the Pittsburgh owner recognizing Phillips' ability placed for safe keeping some of his youngsters with him and Phillips drew a pennant winner. Some new players were developed the same as at East Liverpool. Players are being made this year at Youngstown by Phillips. Among some of them are Fitzwater, Scott, Mosley, Shanks and others who were really cast-offs from weak teams. Now they are stars.

Another luminary with Youngstown who might be mentioned is Conway. He wasn't considered hardly worth trying out by some managers but Phillips foresaw results and Conway is demonstrating that considerable wisdom was shown.

Another fact that shows Phillips as a man capable of picking the best players is the presence of Carey, the phenomenal young outfielder of Pittsburgh and McCarthy, the substitute infielder with the same club. Phillips got both players for Dreyfus.

With Phillips in charge of such luminaries as Bob Beschler, Hoblit, Grant, Larry McLean and some of the other Red players, Phillips could come as near bringing the bunting to Cincinnati as any other man in baseball.

To Rock Point.
Fayette City people will hold an excursion to Rock Point Park on August 15, and preparations are being made for the affair. It is expected that a big crowd will go.

MEDALS TO BE GIVEN

On the evening of August 22, two beautiful gold medals will be presented to the two children who have written the best essay on any phase of playground work upon which they may choose to write. Any child under 16 years of age will be admitted to the contest. All essays must contain at least 100 words and not more than 300. They may be written by either pencil or pen. No contestant shall sign his name or in any way indicate that the essay is his; but in order to identify the essay a number will be put on it as it is handed in and this same number will be put opposite the child's name in a list which will be kept from the eyes of the judges. Three competent judges will be chosen to decide the best essays. When their decision is finally made they will report.

The medals are being presented by the playgrounds committee and therefore have the quality in them. They will be on exhibition in the window of John B. Schafer's jewelry store after Saturday evening, August 12 at noon. Till then they will be on exhibition at the play-grounds. The engraving is complete with the exception that the name of the winner and date will be added. All essays must be in the hands of W. A. Swick by 9 o'clock, p. m., Saturday, August 19. The names of the winners will get public mention at a celebration to be given at the play grounds August 22.

FOREIGNER GOES INSANE SUDDENLY

Believed to have been driven insane by the excessive heat of the past few days Peter Illar, a miner employed in the coal works in the vicinity of West Brownsville is being cared for at the county jail pending the appointment of a commission to examine into his sanity. He was committed to jail by Justice C. E. Eckles on a technical charge of surety of the peace, his boarding boss making the necessary information. Today the court will be petitioned to appoint the lunacy commission.

The man's trouble started with a pain in his head, he having previously complained of the great heat. On Wednesday he suddenly went mad and ran about screaming wildly that someone was trying to catch him. He was captured after considerable difficulty and a guard placed over him.

As a result of a mad dog being sent from Monessen during the recent mad dog scare there, a whole section at Bagley, near Latrobe, in Westmoreland county will be placed under quarantine by the State Department of Health. It was found by Dr. Little, a State veterinarian that the canine had bitten a number of cattle and dogs while supposedly mad. State police are trying to locate the owner of the dog.

AUTO HACK IS BURNED

**Vehicle Was on Way to Sandy
Plains Fair With Num-
ber of People**

LOSS IS ABOUT \$3,000

The big automobile hack which has plied between Washington and Brownsville for over a year was destroyed by fire Thursday, the machine bursting into a blaze as it was toiling up the hill at Clarksville bound for the Sandy Plains track with a cargo of race followers.

The big machine was making good headway on the grade when fire was suddenly discovered. The passengers made a wild and quick getaway but no one was hurt. The fire had gained such headway before being discovered that it was impossible to save the machine and it burned to the ground as it stood. It is supposed the gasoline tank was leaking and the inflammable stuff became ignited in some way. The automobile hack was the property of a company in which John Forsythe of Vesta and Wesley Sherpin of Fredericktown, are the principal stockholders. The loss is estimated at about \$3,000 partially insured.

SCOTTS AND CARSONS WILL HOLD REUNION

It was announced this morning that the annual reunion of the Scott-Carson families would be held in Joseph Carson's grove in Fallowfield township, Saturday, September 9. Arrangements are now being made for the affair. The families are two of the oldest and best known in Washington county.

Festival.
The Lady Maccabees of Charleroi will hold a festival on the Eagles lot on McKean avenue on Saturday evening, August 12 for the benefit of the Emergency fund of the Order. A cordial invitation is extended to all. 10-4-t

**Big Week at Monongahela Terminate With
Tournament**

PARADE IS BIG FEATURE

**Prizes Are Awarded for
Best Appearing Companies--
Battle Fought**

With today's events the firemen's convention will practically close at Monongahela. The tournament is to be the feature today. A number of firemen will leave this evening for their homes and a bigger number will go tomorrow morning.

Prizes were awarded the best equipped companies in the parade which took place Thursday afternoon. Awards were made as follows: Largest band in line, Lyman, prize \$50; finest hook and ladder drawn by horses, Hellevue, first prize \$50, Swissvale, second prize, \$25; finest hook and ladder drawn by hand, McKees Rocks, first prize \$50, Lyman \$25; finest hose reel drawn by horses, Rankin, first prize \$50, South Brownsville, second prize, \$25; finest uniformed company, Brownsville, prize \$25; largest and best appearing company, Lyman, first prize \$50, Kittanning, second prize, \$25; water battle, won by Duquesne, prize \$50. The judges were Dr. A. G. Duncan of Zelienople, R. M. Thirkeld of Fayette City and C. W. Gregg of Brownsville.

T. M. Pollock, a fireman of Monongahela got into trouble when he accidentally ran into John Stotwell, a fireman of Etna, while driving a horse wagon to respond to an alarm of fire. A demonstration which had all the earmarks of a lynching followed. Chief S. M. Downer quelled the disturbance with the aid of a revolver.

LOCAL MENTION

Mrs. J. R. Chalfant, daughter Alvera and son Chads left this morning for Beallsville where they will spend a week visiting friends.

Mrs. C. E. Frontz and daughter, have returned from Selins Grove where they have spent some time as guests of the former's parents.

Mr. and Mrs. Lawrence Kesters, of Washington, D. C. are guests of the former's father, John Kesters. Mr. Kesters was formerly a resident of Charleroi. He is now a promising young attorney of the national capital.

THE FOUR-FLUSHER.

The four-flusher is a man who pre-
tends to be something he is not, who
masquerades as one who "has the
goods," but who is only ace-high on
the showdown, says the Punxsutaw-
ney Spirit.

We have many four-flushers in all
lines of business, but they are spec-
tacularly numerous in politics, where it
is easier to get away with a good
bribe than anywhere else. Nine-tenths
of the voters are too busy to take
the trouble to discriminate between
the genuine and the spurious, and the
other one-tenth being interested in
the division of the jack-pot, may be
easily upon to support the illusion.

A man who has brains and indus-
try, and is not satisfied with sham
dignity or artificial honors, wants to
accomplish something real and sub-
stantial—something that will in-
crease his self-respect.

A real man, when he is elected to
an honorable office, will be impress-
ed with his responsibilities and in-
stead of becoming inflated and self-
important, he will grow more hum-
ble. You can always tell when a
man is too small for his job by the
way he struts. If a man is concerned
about his own person and does not
realize that getting something done
is the only real test of genuineness he
is a hopeless case. He is built
wrong and will never do. Always and
everywhere the smaller the man the
more concerned he is about the dig-
nity of his position.

ELECTRIC SPARKS

It is best not to try to openly get
something that somebody else pos-
sesses. This applies to the stealing
of bases in baseball as well as in
money matters.

PICKED UP IN PASSING

At the meeting of the State Bar
Association at Bedford recently, a
Washington county attorney says
the following story was related by
one of the eminent jurists present:
"During a trial a lawyer quoted
Shakespeare—'Who steals my purse
steals trash'—to a deaf judge
"What's that?" the judge de-
manded.

"Who steals my purse steals
trash," the lawyer repeated. "Twas
something, nothing; 'twas mine, 'tis
his and has been slave!"
"Lounder! I can't hear you!" said
the judge irritably.

"Who steals my purse," repeat-
ed the unfortunate lawyer, "steals
trash. 'Twas!"
"Can't you speak up?" growled the
deaf judge.

"At this point the clerk thought it
time to interfere. He bent over the
judge and shouted in his ear:
"He just says, sir, that anybody
what steals his pocketbook won't get
nothing."

"It is a decided imposition on the
good nature of the patrons of the
electric line between Charleroi and
Pittsburg," said a local patron the
other day, "in that the railways com-
pany does not make provision for the
conveyance of the scores of tired and
weary coal miners who are occupied
in various mines between Charleroi
and Mingo Junction, and not compel
them to be packed, like so many cat-
tle, in a car. Furthermore, their com-
ing in contact as they are bound to do
in their efforts to find a place on the
car, with the wearing apparel of other
passengers, thereby practically in-
juring if not destroying their clothing
is really more than should be expected
of the regular patrons. The miners
themselves are not to blame for this
condition of affairs, as nobody can
rightfully find fault with them for de-
siring to get home as soon as pos-
sible after their day's toil, but it cer-
tainly seems to any fair-minded per-
son that the railroad company might
make some provisions to carry these
very necessary and honorable work-
men other than by crowding them on
one of the regular cars.

Only the other day I personally
counted over sixty miners who board-
ed the car which comes through Mon-
ongahela about five o'clock in the
afternoon. And this, notwithstanding
the fact that the car was very com-
fortably crowded prior to their
boarding it. One person in the smok-
ing car, who did not take the hint
given him by his fellow-passengers
to seek a more desirable nook in the
other section of the car, was so smear-
ed with coal dust and grease when he
dismounted at the Monessen bridge
that it was difficult to recognize him
from among the coal miners.

Why can't the railroad company
run one of the smaller cars for the ac-
commodation of these men? Such a
concession would be appreciated by
miner and public alike. The workmen
could then ride home from their work
in comfort, while the better dressed
person would not live in constant
dread of having to face a cleaner's
bill for the renovation of his Sunday
go-to-meeting clothes every time he
manages to raise the necessary

Labrador's Short Summer.
How brief is the summer on the
highlands of Labrador! says Hesketh
Pritchard in the Wide World. Snow
does not melt till July, then with a
rush midsummer comes. Grasses and
leaves grow almost visibly, the wild
cotton soon flings out its little white
pennons, millions of berries ripen on
the ground, the loon cries, the ptarm-
igan calls, and you may even see a
butterfly balancing in the warm wind.
But then also wakens the countless
army of hunchbacks, lean and gray
mosquitoes, piping blithely for blood.
So summer reigns. Then suddenly
one day at the end of August, after the
sun has sunk behind the barren crags
through a batty warmth of evening,
one may wake up to find everything
transfigured and the first snow of an-
other season already falling.

Found Out His Man.
A southerner who was visiting St.
Louis wandered into the dining room
of the hotel and, seeing a negro servant
who had all the importance of an army
officer standing near the door, asked
him who the "head nigger" was around
there. The negro stretched himself to
his full height and pompously replied
that "there ain't no niggers in St.
Louis, sah. We is all gem-men of col-
or."
"Well," said the southerner, drawing
a \$100 bill from his pocket and finger-
ing it, "I expect to be at this hotel for
some time and want to make sure that
I will be taken care of."
"Oh, sah," said the negro, whose eyes
were popping from his head, "did you
want to know who the head 'nigger
waller' is? That's me."—Allentown

THE CAUSE OF ECZEMA.

is germ life that burrows under and feeds on the skin. The way to cure Eczema is to remove the cause by washing away with a clean, penetrating liquid, the germ life and poisons that cause the trouble.

We have a preparation that will do this. The first application will stop the itching and give prompt relief to an irritated, itching or inflamed skin. If you are a sufferer from skin or scalp eruption in any form, try one bottle of this clean scientific preparation, we are confident you will be pleased with the results from the use of this standard preparation for eczema.

SPEERS.

Mrs. Margaret Dunkerly who has been suffering more than a month with inflammatory rheumatism is still confined to her bed and is not improving very rapidly.

Mrs. Elmer Taylor who had her ankle dislocated and sprained at Eldora Park last week is sitting up a little now. She will probably not walk for three or four months.

The Ladies Aid met at the home of Mrs. Wm. Beam Thursday. Lunch was served by Mrs. Beam and Mrs. Ross Jackman.

Miss Claire Kirk of Roscoe is visiting her sister, Mrs. Dan Doherty.

Mrs. Howard Clendenon is visiting friends at Beallsville this week and her daughter, Miss Myrtle is spending

two weeks at Chautauqua.

Mrs. Wm. Steel who is at Mt. Clemens, Mich., reports that she is somewhat improved.

The M. E. Sunday school has received an invitation to attend the picnic in Carson's Orchard next week with the Vesta U. B. School.

Mrs. Della Nine of near Cleveland Ohio is visiting friends here. Mrs. Nine's maiden name was Della Stephenson. She was raised here leaving the community seventeen years ago with her family. She reports the entire family well and prospering. Her father, John Stephenson died suddenly Jan 1, this year.

The Motto on the Clock.
The old Temple clock in London bears a curious inscription, the origin of which is ascribed to a chance remark.

Some 200 years or so ago a master workman was employed to repair and put in a new face upon the clock. When his work was nearly done he asked the benchers for an appropriate motto to carve upon the base. They promised to think of one. Week after week he came for their decision, but was put off. One day he found them at dinner in common.

"What motto shall I put on the clock, your lordship?" he asked of a learned judge.

"Oh, go about your business!" his honor cried angrily.

"And very suitable for a lazy, dawdling gang!" the clockmaker is said to have muttered as he retreated. It is certain that he carved "Go about your business" on the base.

The lawyers decided that no better warning could be given them at any hour of the day, and there the inscription still remains.—Harper's Weekly.

The Exceptional Young Man.
The exceptional young man, says Orison Sweet Marden in Success Magazine, is the one who looks upon his employer's interests as he would his own, who regards his vocation as an opportunity to make a man of himself, an opportunity to show his employer the stuff he is made of, and who is always preparing himself to fill the position above him.

The exceptional young man is the one who never says, "I was not paid to do that," "I don't get salary enough to work after hours or to take so much pains." He never leaves things half done, but does everything to a finish. The exceptional young man is the one who studies his employer's business, who reads his literature, who is on the watch for every improvement which others in the same line have adopted and which his employer has not, who is always improving himself during his spare time for larger things.

Killed by Falling Rock.
A tragic incident occurred near Berne, Switzerland, a few days ago. During a procession to a mountain chapel a rock rolled down upon a band of pilgrims. A young girl of 18 was killed while walking by the side of her fiancé, and others of the band were badly injured.

A Sport for the Old.
In most sports youth possesses all the advantages; experience is often a poor match for youth and agility, but the striping has no advantage over skillful age in fishing.

Remnant Sale!

Of course we all know what Remnant and Odd Lot Sales are, but this is even going to be more than the ordinary Remnant Sale. We intend to sell every yard of goods and clean our stock and shelves entirely of the remainder of the J. K. Skelly stock. This must be done at once regardless of the sacrifice, for we do not intend to carry any goods from season to season. If a price will move it out it goes regardless of cost, and that is just what is going to happen now.

Develop Individuality.
Care should be taken in the family that each child develops an individuality, says the London Sketch. Sometimes, especially in the case of girls, it is a good idea to send children to different schools. This seems an extreme measure, but is worth the consideration of the parents who find that their brood are dropping into slovenly habits of speech, into codes and rules of their own, and a general contempt and disregard of the rest of the world.

All About the Pig.
A little boy's first composition was about a pig. This is the way he wrote it: "Pigs are very queer animals. The pig has its uses. Our dog don't like pigs. His name is Nero. Our teacher read a piece one day about a wicked king named Nero. I like good men. My papa is an awful good man. Men are very useful. They have a great many uses which I can't stop to tell them all. This is all I can think of about the pig."

Finally Ascended Mountain.
After years of effort to reach its summit, which lies 6,500 feet above sea level, Mount Hotham, Australia, has at last been conquered by motorists. The other day two motorists climbed up to its highest summit through gum tree forests, and over vast wastes of fern and sand. Fully 100 cars have attempted to climb this mountain but failed. The grades are so sharp that it is difficult in a long pull to lubricate the front wheels.

League clubs are getting more of the youngsters on their lists this year than at any time previous. What is the significance?

A pickup team of Charleroi Church leaguers defeated the H. C. Frick engineer's team on the local ground last night by the score of 4 to 1. In the Charleroi line-up were Deitz, Adams, Jolliffe, Wilson, Mangar, Pieper, Nutt, Heffran, Osborne. In the Frick line-up were King Fish Wahbeshav, Jenkins, Dawson, Crook, Thompson, Kennedy and Smith.

YOUTHFUL SWAIN ARRIVES TOO LATE

Miss Nell Brookman, the 17 year old daughter of a Washington policeman was taken in charge at Buffalo yesterday while loitering around the railroad station. She was taken to the juvenile court detention rooms where she declared that she was waiting for her lover, who had arranged to meet her at the station in Buffalo.

The young woman, who says that she is employed in one of the glass factories at Washington, arrived at Buffalo yesterday. She had come from the Pennsylvania town to meet a young man by the name of Wilson with whom she was to be wed. The girl arrived but the respective benedict did not show up and the pretty miss was left to wander about the station without a friend, waiting for her lover who did not appear.

The officials of the juvenile court took her in charge and at the detention rooms she told how the young man had sent her money to come to Buffalo and there they intended to be married. While the girl was at the detention rooms her lover appeared. His train had been late and when he arrived at the station he found that his sweetheart had been taken in charge. He tried to find her and after an explanation the lovers clasped each other in an affectionate embrace. Then the authorities left the room and when they returned it was announced that the young man and girl would be married.

Under instructions from the juvenile court authorities there was sent to the mother of the girl in Washington, Pa., asking her if she would consent to her daughter's marriage with the young man. She wired back that she would not consent to the marriage in Buffalo and advised the young couple to return to Washington and have the nuptial knot tied.

The trip to Buffalo was planned some time ago and young Wilson sent the girl money to go to Buffalo to meet him. She left her home Tuesday morning and did not tell them where she was going. When taken in charge of the juvenile court authorities her parents were notified.

BASEBALL BINGLES

Bill Phillips this morning announced the sale of Tate, Scott and Sheer to the Washington Americans. They have been playing great ball for Youngston.

President Dreyfus is spending a lot of money this year. Within the past three weeks he has spent \$35,000 on two players. He bought Pitcher O'Toole from St. Paul several days ago for \$22,500 and it was announced that he had purchased his catcher, Kelly, for \$12,500.

It's very noticeable that all the big

MONTH'S WORK NECESSARY TO COMPLETE SURVEYS

**H. C. Frick Engineers
Still In This Part of
The Valley**

OPENINGS WITHIN YEAR

**Mines May be Put in Opera-
tion Before Twelve
Months Elapse**

Engineers of the H. C. Frick Coke Company, the fuel end of the United States Steel corporation, are still at work in the Monongahela valley making surveys of the property and crop lines of the tract recently purchased in this vicinity from the Pittsburgh Coal Company and affiliated concerns. While all due haste is being exercised in making the surveys it is likely that they will not be completed for a month yet.

The general impression among the engineers is that there will be openings made within a year along the valley. Where is a question. Probably one opening at least will be in the vicinity of Charleroi. Others will be at intervals along the valley between Monongahela and Rices Landing.

There are nine corps of engineers now working in the valley between Rices Landing and Monongahela and C. A. McIntyre is the engineer in chief. Three corps are working with headquarters at Charleroi.

The work of surveying the tract adjacent to Charleroi on the south has been completed. This tract extends back to within a few miles of Bentleyville and adjoins the Vesta Coal Company's holdings. It runs to about the Maple Creek line. This work was started first, and was completed first. It was stated that two openings were to be made by the Frick people, one near the present Redbird mine opening and the other at Beechwood. It is not known whether or not either of the openings for a certainty will be made. After finishing the surveys back of Speers and Dunlevy the engineers stationed at Charleroi were sent to help out on the Monongahela end which was not begun until after a good start was made on the local work. At the same time engineers were put to work in the vicinity of Brownsville and Rices Landing.

What gives rise largely to the belief that mines will be opened in this vicinity is the fact of the superiority of the coal to be had. In their Fayette county fields the H. C. Frick Company has good coal for coking purposes but it has not the quality for steam gas and coking purposes the coal to be found in this part of the Monongahela valley has. Should they find it advisable to start operations along the Monongahela valley the Frick Coke company in all probability ship much of the coal to Indiana to be used in gas producing. This coal is said to be especially adaptable for such use.

Child Lost.

Utterly bewildered and crying bitterly a lost child about 4 years old was found this morning at the playgrounds in the Pines. It was taken to the home of Mrs. Mountchecourt on Crest avenue.

A good sized crowd attended the firemen's dance at Eldora Park Thursday night. An excellent time was enjoyed.

SPLENDID RACES AT SANDY PLAINS

**Big Crowd and Good Going
Features Best Year at
Popular Track.**

The annual racing season at the Sandy Plains track came to an end with a bunch of fast events Thursday afternoon pulled off on a well high perfect track in the presence of a crowd which in numbers far exceeded the turnout of Wednesday the opening day.

Princess Alcantara, represented as a Fayette City horse won first money in the 2:18 pace. This horse is one in which Dr. A. O. Davis of Charleroi is interested.

ATTRACTIONS ARE PICKED

**Entertainment Course This Year
to be an Especially
Good One.**

TWO LECTURES SECURED

The costliest and what is supposed will prove the best entertainment the Charleroi Citizens' Entertainment course Charleroi ever had was selected by Charleroi Citizens' Entertainment Course committee at a meeting Thursday night. Consisting of two lectures and four entertainments it is expected the course will prove more attractive than that of last year. It will cost \$500.

The lectures will be Newell Dwight Hillis, pastor of the Plymouth church Brooklyn and one of the best known lecturers of the present day and Judge George D. Alden, of Massachusetts. Judge Alden comes well recommended.

The entertainers selected were: Strickland W. Gillean, humorist; Alton Packard, cartoonist; the Dudley Buck Concert Company of ladies; and the Music Makers, a male quartet of singers and players. Packard, the cartoonist appeared here once before and was well received. The Dudley Buck company is said to be one of the best musical organizations on the road today.

CRAFTON PICKED TEAM MAY COME

Prof. I. T. Daniel, chairman of a committee from the Church baseball league to arrange games with other Church league teams, is in receipt of a letter from Earl Graham of the Grafton-Ingram league, in which the latter states it was the intention of the Grafton-Ingram people to play the local team of pennant winners and the league there does not favor playing with a picked team. He says further that he will get a team together if desired to play in Charleroi any Saturday. It is possible that a game may be arranged.

SLAV PROVES EASY VICTIM TO SHARPER

**East Charleroi Man Loses \$65 Through Trust
In Another Man by Whom
He Was Accused.**

After searching from 10 o'clock to 2 o'clock Thursday for a man who divorced him from \$65 in hard earned money, a Slav with wonderful thoughtfulness happened to think that the police were the persons to whom he should confide his tale of woe, and he approached them. But by this time his erstwhile companion who had secured the money was not to be found.

The Slav was from East Charleroi and was going to Lexington, Ky. He met a couple of others who said they were going to the same place. Out for a walk one accused the unsophisticated East Charleroi young man of robbing him. This was

of course denied, but the man insisted while the third member of the party walked away. Finally the East Charleroi man pulled out his roll and his companion counted it. He claimed the money was the right amount. Then it happened to occur to him that perhaps after all he was mistaken and that the one who had walked away had taken the money. Still he was not going to lose so telling the East Charleroi man to wait he walked away with the \$65, supposedly to accuse his friend of the theft. After waiting until near noon the latter started on a search then went to the police. He will not go to Lexington.

PHILLIPS IS POPULAR

In the opinion of Charleroi folks there could be no better choice made by the workers of the Cincinnati National League baseball club than to choose "Bill" Phillips for manager of the team. To secure him would be to secure a man well versed in the art of managing and one who knows baseball thoroughly.

Besides having an enviable record of 24 years himself as a pitcher and player, Phillips has acquired a reputation as a manager. His acumen at picking players has brought him substantial offers from big league clubs to do scout duty nearly all of which he has seen fit to turn down.

Phillips has made more than one player. He had a guiding hand in the destiny of "Bill" McKee, the young Pittsburgher who is making such a record with the Pirates this year. Another man he produced was Nick Maddox who was an effective twirler for the Pirates for a couple of years and who is doing great work now in the American Association.

When he took charge of East Liverpool a few seasons ago, he took hold of a club which didn't seem to have any future. He dug up players from no place apparently and developed the best team in the O. and P. league. When he took charge of Wheeling he didn't have much material and had a tail ender to build up. He was close to Barney Dreyfus and the Pittsburgh owner recognizing Phillips' ability placed for safe keeping some of his youngsters with him and Phillips drew a pennant winner. Some new players were developed the same as at East Liverpool. Players are being made this year at Youngstown by Phillips. Among some of them are Fitzwater, Scott, Mosley, Shanks and others who were really cast-offs from weak teams. Now they are stars.

Another luminary with Youngstown who might be mentioned is Conway. He wasn't considered hardly worth trying out by some managers but Phillips foresaw results and Conway is demonstrating that considerable wisdom was shown.

Another fact that shows Phillips as a man capable of picking the best players is the presence of Carey, the phenomenal young outfielder of Pittsburgh and McCarthy, the substitute infielder with the same club. Phillips got both players for Dreyfus.

With Phillips in charge of such luminaries as Bob Fescher, Hoblitzel, Grant, Larry McLean and some of the other Red players, Phillips could come as near bringing the bunting to Cincinnati as any other man in baseball.

MEDALS TO BE GIVEN

On the evening of August 22, two beautiful gold medals will be presented to the two children who have written the best essay on any phase of playground work upon which they may choose to write. Any child under 16 years of age will be admitted to the contest. All essays must contain at least 100 words and not more than 300. They may be written by either pencil or pen. No contestant shall sign his name or in any way indicate that the essay is his; but in order to identify the essay a number will be put on it as it is handed in and this same number will be put opposite the child's name in a list which will be kept from the eyes of the judges. Three competent judges will be chosen to decide the best essays. When their decision is finally made they will report.

The medals are being presented by the playgrounds committee and therefore have the quality in them. They will be on exhibition in the window of John B. Schafer's jewelry store after Saturday evening, August 12 at noon. Till then they will be on exhibition at the playgrounds. The engraving is complete with the exception that the name of the winner and date will be added. All essays must be in the hands of W. A. Swick by 9 o'clock, p. m., Saturday, August 19. The names of the winners will get public mention at a celebration to be given at the play grounds August 22.

FOREIGNER GOES INSANE SUDDENLY

Believed to have been driven insane by the excessive heat of the past few days Peter Illar, a miner employed in the coal works in the vicinity of West Brownsville is being cared for at the county jail pending the appointment of a commission to examine into his sanity. He was committed to jail by Justice C. E. Eckles on a technical charge of surety of the peace, his boarding boss making the necessary information. Today the court will be petitioned to appoint the lunacy commission.

The man's trouble started with a pain in his head, he having previously complained of the great heat. On Wednesday he suddenly went mad and ran about screaming wildly that someone was trying to catch him. He was captured after considerable difficulty and a guard placed over him.

FIREMEN'S CONVENTION PRACTICALLY AT AN END

QUARENTINE IS ESTABLISHED

**Mad Dog Said to Have Been Sent
From Monessen Causes Another
Locality to Suffer.**

As a result of a mad dog being sent from Monessen during the recent mad dog scare there, a whole section at Bagley, near Latrobe, in Westmoreland county will be placed under quarantine by the State Department of Health. It was found by Dr. Little, a State veterinarian that the canine had bitten a number of cattle and hogs while supposedly mad. State police are trying to locate the owner of the dog.

AUTO HACK IS BURNED

**Vehicle Was on Way to Sandy
Plains Fair With Num-
ber of People**

LOSS IS ABOUT \$3,000

The big automobile hack which has plied between Washington and Brownsville for over a year was destroyed by fire Thursday, the machine bursting into a blaze as it was toiling up the hill at Clarksville bound for the Sandy Plains track with a cargo of race followers.

The big machine was making good headway on the grade when fire was suddenly discovered. The passengers made a wild and quick getaway but no one was hurt. The fire had gained such headway before being discovered that it was impossible to save the machine and it burned to the ground as it stood. It is supposed the gasoline tank was leaking and the inflammable stuff became ignited in some way. The automobile hack was the property of a company in which John Forsythe of Vesta and Wesley Sherrin of Fredericktown, are the principal stockholders. The loss is estimated at about \$3,000 partially insured.

SCOTTS AND CARSONS WILL HOLD REUNION

It was announced this morning that the annual reunion of the Scott-Carson families would be held in Joseph Carson's grove in Fallowfield township, Saturday, September 9. Arrangements are now being made for the affair. The families are two of the oldest and best known in Washington county.

Big Week at Monongahela Terminate With Tournament

PARADE IS BIG FEATURE

**Prizes Are Awarded for
Best Appearing Companies--
Battle Fought.**

With today's events the firemen's convention will practically close at Monongahela. The tournament is to be the feature today. A number of firemen will leave this evening for their homes and a bigger number will go tomorrow morning.

Prizes were awarded the best equipped companies in the parade which took place Thursday afternoon. Awards were made as follows: Largest band in line, Lyman, prize \$50; finest hook and ladder drawn by horses, Rankin, first prize \$50, South Brownsville, second prize \$25; finest uniformed company, Brownsville, prize \$25; largest and best appearing company, Lyman, first prize \$50, Kittanning, second prize \$25; water battle, won by Duquesne, prize \$50. The judges were Dr. A. G. Duncan of Zelienople, R. M. Thirkeld of Fayette City and T. W. Gregg of Brownsville.

T. M. Pollock, a fireman of Monongahela got into trouble when he accidentally ran into John Stotwell, a fireman of Etta, while driving a hose wagon to respond to an alarm of fire. A demonstration which had all the earmarks of a lynching followed. Chief S. M. Downer quelled the disturbance with the aid of a revolver.

LOCAL MENTION

Mrs. J. R. Chalfant, daughter Alvera and son Chads left this morning for Beallsville where they will spend a week visiting friends.

Mrs. C. E. Frontz and daughter, have returned from Selins Grove where they have spent some time as guests of the former's parents.

Mr. and Mrs. Lawrence Kosters, of Washington, D. C. are guests of the former's father, John Kosters. Mr. Kosters was formerly a resident of Charleroi. He is now a promising young attorney of the national capital.

THE FOUR-FLUSHER.

The four-flusher is a man who pre-
tends to be something he is not, who
masquerades as one who "has the
goods," but who is only ace-high on
the showdown, says the Punksutaw-
ner Spirit.

We have many four-flushers in all
lines of business, but they are espe-
cially numerous in politics, where it
is easier to get away with a good
bluff than anywhere else. Nine-tenths
of the voters are too busy to take
the trouble to discriminate between
the genuine and the spurious, and the
other one-tenth being interested in
the division of the jack-pot, may be
easily upon to support the illusion.

A man who has brains and indus-
try, and is not satisfied with sham
dignity or artificial honors, wants to
accomplish something real and sub-
stantial—something that will in-
crease his self-respect.

A real man, when he is elected to
an honorable office, will be impress-
ed with his responsibilities and in-
stead of becoming inflated and self-
important, he will grow more hum-
ble. You can always tell when a
man is too small for his job by the
way he struts. If a man is concerned
about his own person and does not
realize that getting something done
is the only real test of genuineness he
is a hopeless case. He is built
wrong and will never do. Always and
everywhere the smaller the man the
more concerned he is about the dig-
nity of his position.

ELECTRIC SPARKS

It is best not to try to openly get

money matters.

PICKED UP IN PASSING

At the meeting of the State Bar
Association at Bedford recently, a
Washington county attorney, says
the following story was related by
one of the eminent jurists present:

"During a trial a lawyer quoted
Shakespeare—'Who steals my purse
steals trash'—to a deaf judge.

"What's that?" the judge de-
manded.

"Who steals my purse steals
trash," the lawyer repeated. "'Twas
something, nothing; 'twas mine, 'tis
his and has been slave'—"

"Louder! I can't hear you!" said
the judge irritably.

"Who steals my purse," repeat-
ed the unfortunate lawyer, "steals
trash."

"Can't you speak up?" growled the
deaf judge.

"At this point the crier thought it
time to interfere. He bent over the
judge and shouted in his ear:

"He just says, sir, that anybody
who steals his pocketbook won't get
nothing."

"It is a decided imposition on the
good nature of the patrons of the
electric line between Charleroi and
Pittsburg," said a local patron the
other day, "in that the railroads com-
pany does not make provision for the
conveyance of the scores of tired and
weary coal miners who are occupied
in various mines between Charleroi
and Mingo Junction, and not compel
them to be packed, like so many cat-
tle, in a car. Furthermore, their com-
ing in contact as they are bound to do
in their efforts to find a place on the
car, with the wearing apparel of other
passengers, thereby practically in-
juring if not destroying their clothing
is really more than should be expected
of the regular patrons. The miners
themselves are not to blame for this
condition of affairs, as nobody can
rightfully find fault with them for de-
siring to get home as soon as pos-
sible after their day's toil, but it cer-
tainly seems to any fair-minded per-
son that the railroad company might
make some provisions to carry these
very necessary and honorable work-
men other than by crowding them on
one of the regular cars.

Only the other day I personally
counted over sixty miners who board-
ed the car which comes through Mon-
ongahela about five o'clock in the
afternoon. And this, notwithstanding
the fact that the car was very com-
fortably crowded prior to their
boarding it. One person in the smok-
ing car, who did not take the hint
given him by his fellow-passengers
to seek a more desirable nook in the
other section of the car, was so smear-
ed with coal dust and grease when he
dismounted at the Monessen bridge
that it was difficult to recognize him
from among the coal miners.

Why can't the railroad company
run one of the smaller cars for the ac-
commodation of these men? Such a
concession would be appreciated by
miner and public alike. The workmen
could then ride home from their work
in comfort, while the better dressed
person would not live in constant
dread of having to face a cleaner's
bill for the renovation of his Sunday
go-to-meeting clothes every time he
manages to raise the necessary

Labrador's Short Summer.

How brief is the summer on the
highlands of Labrador! says Hesketh
Pritchard in the Wide World. Snow
does not melt till July, then with a
rush midsummer comes. Grasses and
leaves grow almost visibly, the wild
cotton soon flings out its little white
pennons, millions of berries ripen on
the ground, the loon cries, the ptarmi-
gan calls, and you may even see a
butterfly balancing in the warm wind.
But then also wakens the countless
army of bumblebees, lean and gray
mosquitoes, piping blithely for blood.
So summer reigns. Then suddenly
one day at the end of August, after the
sun has sunk behind the barren crags
through a balmy warmth of evening,
one may wake up to find everything
transfigured and the first snow of an-
other season already falling.

Found Out His Man.

A southerner who was visiting St.
Louis wandered into the dining room
of the hotel and, seeing a negro servant
who had all the importance of an army
officer standing near the door, asked
him who the "herd nigger" was around
there. The negro stretched himself to
his full height and pompously replied
that "there ain't no niggers in St.
Louis, sah. We is all gen-men of col-
or."

"Well," said the southerner, drawing
a \$100 bill from his pocket and finger-
ing it, "I expect to be at this hotel for
some time and want to make sure that
I will be taken care of."
"Oh, sah," said the negro, whose eyes
were popping from his head, "did you
want to know who the head 'nigger
waiter' is? That's me."—Allentown

The Motto on the Clock. The old Temple clock in London bears a curious inscription, the origin of which is ascribed to a chance remark.

Some 200 years or so ago a master workman was employed to repair and put in a new face upon the clock. When his work was nearly done he asked the benchers for an appropriate motto to carve upon the base. They promised to think of one. Week after week he came for their decision, but was put off. One day he found them at dinner in communion.

"What motto shall I put on the clock, your lordship?" he asked of a learned judge.

"Oh, go about your business," his honor cried angrily.

"And very suitable for a lazy, dawdling fellow," the clockmaker is said to have muttered as he retreated. It is certain that he carried "Go about your business" on the base.

The lawyers decided that no better warning could be given them at any hour of the day, and there the inscription still remains.—Herald Weekly.

The Exceptional Young Man.

The exceptional young man, says Orison Sweet Marden in Success Magazine, is the one who looks upon his employer's interests as he would his own, who regards his vocation as an opportunity to make a man of himself, an opportunity to show his employer the stuff he is made of and who is always preparing himself to fill the position above him.

The exceptional young man is the one who never says, "I was not paid to do that," "I don't get salary enough to work after hours or to take so much pains." He never leaves things half done, but does everything to a finish.

The exceptional young man is the one who studies his employer's business, who reads his literature, who is on the watch for every improvement which others in the same line have adopted and which his employer has not, who is always improving himself during his spare time for larger things.

Develop Individuality.

Care should be taken in the large family that each child develops an individuality, says the London Sketch. Sometimes, especially in the case of girls, it is a good idea to send children to different schools. This seems an extreme measure, but is worth the consideration of the parents who find that their brood are dropping into slovenly habits of speech, into codes and rules of their own, and a general contempt and disregard of the rest of the world

All About the Pig.

A little boy's first composition was about a pig. This is the way he wrote it: "Pigs are very queer animals. The pig has its uses. Our dog don't like pigs." His theme is Nero. Our teacher read a piece one day about a wicked king named Nero. I like good men. My papa is an awful good man. Men are very useful. They have a great many uses which I can't stop to tell them all. This is all I can think of about the pig."

Finally Ascended Mountain.

After years of effort to reach its summit, which lies 6,500 feet above sea level, Mount Hotham, Australia, has at last been conquered by motorists. The other day two motorists climbed up to its highest summit through gum tree forests, and over vast wastes of fern and sand. Fully 100 cars have attempted to climb this mountain but failed. The grades are so sharp that it is difficult in a long pull to lubricate the "greases."

League clubs are getting more of the youngsters on their lists this year than at any time previous. What is the significance?

A pickup team of Charleroi Church leaguers defeated the H. C. Frick engineer's team on the local ground last night by the score of 4 to 1. In the Charleroi line-up were Deitz, Adams, Jolliffe, Wilson, Mangan, Pieper, Nutt, Heffran, Osborne. In the Frick line-up were King, Fish, Wahleshav, Jenkins, Dawson, Crock, Thompson, Kennedy and Smith.

YOUTHFUL SWAIN ARRIVES 100 LATE

Miss Nell Brookman, the 17 year old daughter of a Washington policeman was taken in charge at Buffalo yesterday while loitering around the railroad station. She was taken to the juvenile court detention rooms where she declared that she was waiting for her lover, who had arranged to meet her at the station in Buffalo.

The young woman, who says that she is employed in one of the glass factories at Washington, arrived at Buffalo yesterday. She had come from the Pennsylvania town to meet a young man by the name of Wilson with whom she was to be wed. The girl arrived but the respective benedict did not show up and the pretty miss was left to wander about the station without a friend, waiting for her lover who did not appear.

The officials of the juvenile court took her in charge and at the detention rooms she told how the young man had sent her money to come to Buffalo and there they intended to be married. While the girl was at the detention rooms her lover appeared. His train had been late and when he arrived at the station he found that his sweetheart had been taken in charge. He tried to find her and after an explanation the lovers clasped each other in an affectionate embrace. Then the authorities left the room and when they returned it was announced that the young man, a girl would be married.

Under instructions from the juvenile court authorities there was sent to the mother of the girl in Washington, Pa., asking her if she would consent to her daughter's marriage with the young man. She wired back that she would not consent to the marriage in Buffalo and advised the young couple to return to Washington and have the nuptial knot tied.

The trip to Buffalo was planned some time ago and young Wilson sent the girl money to go to Buffalo to meet him. She left her home Tuesday morning and did not tell them where she was going. When taken in charge of the juvenile court authorities her parents were notified.

BASEBALL BINGLES

Bill Phillips this morning announced the sale of Tate, Scott and Sheer to the Washington Americans. They have been playing great ball for Youngston.

President Dreyfus is spending a lot of money this year. Within the past three weeks he has spent \$35,000 on two players. He bought Pitcher O'Toole from St. Paul several days ago for \$22,500 and it was announced that he had purchased his catcher, Kelly, for \$12,500.

It's very noticeable that all the big
